Summer has finally arrived and we are in the heart of the warm temperatures! We hope that the Alberta fishing season has treated you well thus far. We have been continually making minor tweaks to the site in order to make your experience better; but more recently, we have updated our stock reports and included locations that were stocked this spring and early summer. So go check out your favorite fishing holes and see if it was stocked, or find a new fishing hole and create a new adventure with friends and family.

If you don't know already we have been updating our [flickr](#) account with lots of new photos of lakes and fishing highlights of this spring. Go check out some of the [beautiful Alberta Lakes](#) that are at our finger tips.
